

Harold B. Lee Library
FOOD AND DRINK POLICY

FOOD

To minimize damage to the collection and maintain a clean environment conducive to quiet study, the library has a NO FOOD policy throughout most of the building with one exception:

A “food friendly” snack zone, located in the south wing of level three, allows students to take a food break without leaving the library. Patrons may eat cold food in this area; however, hot foods, food preparation, and food deliveries are not allowed. Liquids must be in containers with screw top lids.

Patrons in the snack zone should handle food in a responsible manner, conscientiously clean up after themselves, and immediately report spills or other problems to library staff. In order to maintain a pleasant study environment for all users, food is not allowed in other areas of the library.

DRINKS

Beverages in containers with screw top lids are allowed in all public areas of the Library except:

- Special Collections reference area and reading room
- posted areas in the Music/Dance area

STORAGE

Overnight storage of food in lockers is prohibited.

EVENTS

Occasionally the library sponsors special events which include food service. The event location and food guidelines are carefully selected and approved by the library administration.
