Databases Containing Accounting Standards & Practices

- **Accounting & Tax with Standards (ProQuest)**
Search key accounting standards from FASB, GASB, and IASB along with top accounting literature. International in scope, this product has in-depth coverage of accounting policies, state and national tax legislation, corporate taxation, as well as related accounting topics such as auditing, compensation, pension plans, and financial management.
- **Accounting Research Manager (ARM)**
A comprehensive database of accounting and auditing information. The standards section provides access to the full text of all current authoritative accounting and auditing standards from the AICPA, SEC, PCAOB, GAO, OBM and IASB. The database also includes secondary analysis from the Big Four accounting firms and the Miller Guides.
